

PRESS RELEASE

FOR IMMEDIATE DISTRIBUTION

Montreal, January 2007 – SHS opens office in Paris. SHS, in collaboration with its partner NOVIPRO, today announced it has opened an office in Paris to meet the developing needs of the French market for professional IT services.

SHS, founded in 1999, focuses primarily on the resale of ERP (Enterprise Resource Planning) and EAM (Enterprise Asset Management) solutions from Infor. The company also offers ERP consulting and training services and is very active in the manufacturing and distribution market among small and medium-sized businesses.

Stéphane Galarneau, President of SHS, stated: "Our entry into France is fully aligned to our growth strategy. It will allow us to take advantage of the consulting expertise that we have developed, particularly in ERP implementation. Our partnership with NOVIPRO provides us with access to specific IT knowledge. In addition to reinforcing the synergies between the two companies, this latest initiative enhances our offering considerably. Our Paris office expands our geographic reach and opens the large French market to us."

About SHS

Since 1999, SHS has developed cutting-edge expertise in the implementation of management software for SMEs in the manufacturing sector. Through its know-how and the ERP solutions it sells, SHS maximizes the efficiency of each step in its clients' supply chain. The experience of the SHS team provides it with an in-depth understanding of the growth issues of its clientele, allowing it to proactively manage all operations, from production to billing. With SHS, business is good!
