

PRESS RELEASE

FOR IMMEDIATE DISTRIBUTION

Montreal, March 2007 – SHS and NOVIPRO – a profitable acquisition! SHS is pleased to announce that since its 2005 partnership with NOVIPRO, its sales have increased by more than 730%!

Stéphane Galarneau, President of SHS, stated: “Our partnership with NOVIPRO has allowed SHS to establish a solid financial base. However, the most significant aspect of this union is without question the synergy that has been generated between the two groups in their respective sectors of expertise.”

“When we acquired a majority interest in SHS, our objective was to strengthen our position in the SME market and expand our proficiency in the IT services domain,” explained Yves Paquette, President and CEO of Novipro. “We knew that SHS had the expertise and market knowledge it needed to excel. We have simply provided it with the means to perform to its full potential, such as the support to open an SHS office in Paris. And the results have exceeded our expectations. We are more than satisfied!”

About SHS

Since 1999, SHS has developed cutting-edge expertise in the implementation of management software for SMEs in the manufacturing sector. Through its know-how and the ERP solutions it sells, SHS maximizes the efficiency of each step in its clients’ supply chain. The experience of the SHS team provides it with an in-depth understanding of the growth issues of its clientele, allowing it to proactively manage all operations, from production to billing. With SHS, business is good!
